

Group Commitment Agreement for group 7-NexUs

We, the undersigned, upon joining the course **Ingeniería de Software y Práctica Profesional (ISPP)** for the **2025–26** academic year, commit to meeting the following requirements and conditions as active members of the working group:

- **Time Commitment:** We commit to dedicating **10 hours per week** to the activities and tasks assigned within the scope of the course, including class attendance.
- **Effort:** We commit to **voluntarily leaving the group** so as not to hinder its progress if our individual effort does not reach at least **50%** of what is required.
- **Task Completion:** We commit to completing our assigned tasks on time, especially in cases where failing to meet our responsibilities could result in our teammates needing to work **outside the agreed working hours**.
- **Time Tracking:** We commit to recording the time spent on each task using the **tool defined by the team (e.g., Clockify)**, providing the necessary level of detail for each task as required.
- **Asymmetric Grading in Deliverables (in case of overload caused by non-compliance):** We acknowledge that if, in any deliverable, some tasks are not completed **due to insufficient dedication of hours**, and this causes an additional workload in hours and tasks for another person, an **asymmetric distribution of the deliverable grade** may be applied among the students involved, reflecting each person's actual contribution and the extra effort required to compensate for the missing work.

By signing this document, we understand and accept the responsibilities assigned to us and commit to fulfilling them as established herein.
